IDX Control Panel

The IDX Control Panel will look something like the image below.

The default screen will show the most recent activity of your leads and the recent monthly activity.

The screenshot shows the iHomefinder IDX Control Panel interface. At the top, there is a navigation bar with four tabs: LEADS (selected), LISTINGS, REPORTS, and SETUP. Below the navigation bar, the main content area is divided into two sections. On the left, there is a sidebar with two options: 'Lead Activity' (selected) and 'Manage Leads'. The main content area is titled 'Latest Activity' and displays two recent activities. The first activity is from 'Elizabeth' who submitted a contact request on 1/19/2014 at 2:06 PM. The message reads: 'Hello, My name is Elizabeth Settevendemie, and I was wondering if the house at 2785 Birch Ave. advertised is still available? If so, is there a time that I could come over and take a look? My friend and I are very interested in this unit. I attend Cal Poly full time and she works as a baker at Splash Cafe In San Luis Obispo but we want to move to Morro Bay! Thank you, Elizabeth'. The second activity is from 'Jeremy Beck' who signed up from a user registration prompt on 1/15/2014 at 12:14 PM. To the right of the 'Latest Activity' section, there is a table titled 'Recent Monthly Activity'.

Adding a New Lead

Click Manage Leads and then Search Leads from the Leads tab, click the Add a New Lead link. This will bring up the sign up dialog box shown below. Fill in the e-mail address, name and search criteria for your new contact. If the search is for houses and/or condos you can click the More Search Options link at the bottom of the page to include more detailed search criteria. click the sign-up to add your new lead. If you selected the option, the lead will begin to receive daily e-mail alerts whenever new properties that match their search criteria are listed on the MLS.

The form is titled "Email Alerts" and includes a sub-header: "Sign up and have new listings that match your search criteria delivered to your inbox." It contains several input fields for user information and search criteria.

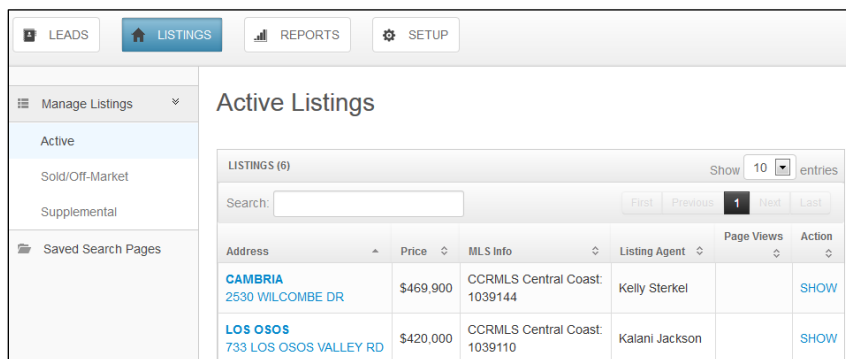

Fields include:

- Email Address*
- Name*
- Phone Number
- Name This Search
- Location (City / Zip)
- Property Type (House / Condo)
- Bedrooms (Any)
- Bathrooms (Any)
- Minimum Price (\$ No min)
- Maximum Price (\$ No max)
- Min. Sq. Ft. (0)
- Max. Lot Acres (0)
- ☐ Only include listings with photos.
- Delivery Schedule: ☐ No Emails, ☒ Send Emails Daily, ☐ Advanced Email Options
- Email Format: ☒ HTML, ☐ Plain Text

At the bottom, it identifies the agent: "My Pedersen Realty & Property Management Agent: Andy Agent". There is a CAPTCHA section with a text input and a "Type the text" prompt. A "SIGN UP" button is at the bottom right, and a "MORE SEARCH OPTIONS" link is at the bottom left.

Manage Listings

The Manage Listings/Active screen displays a list of all of your listings.

The screenshot shows the "Manage Listings" interface with the "Active" tab selected. It displays a table of active listings with columns for Address, Price, MLS Info, Listing Agent, Page Views, and Action.

Address	Price	MLS Info	Listing Agent	Page Views	Action
CAMBRIA 2530 WILCOMBE DR	\$469,900	CCRMLS Central Coast: 1039144	Kelly Sterkel		SHOW
LOS OSOS 733 LOS OSOS VALLEY RD	\$420,000	CCRMLS Central Coast: 1039110	Kalani Jackson		SHOW

Modify Listings

Clicking on a listing will take you to the Modify Listing screen.

From this screen, you can view or modify how your listing will display on your website. You can view or edit the property description; add a branded virtual tour in addition to or to replace the one on the MLS; input open house information; turn off the map location link on the property detail page; or add an extra link on the property detail page.

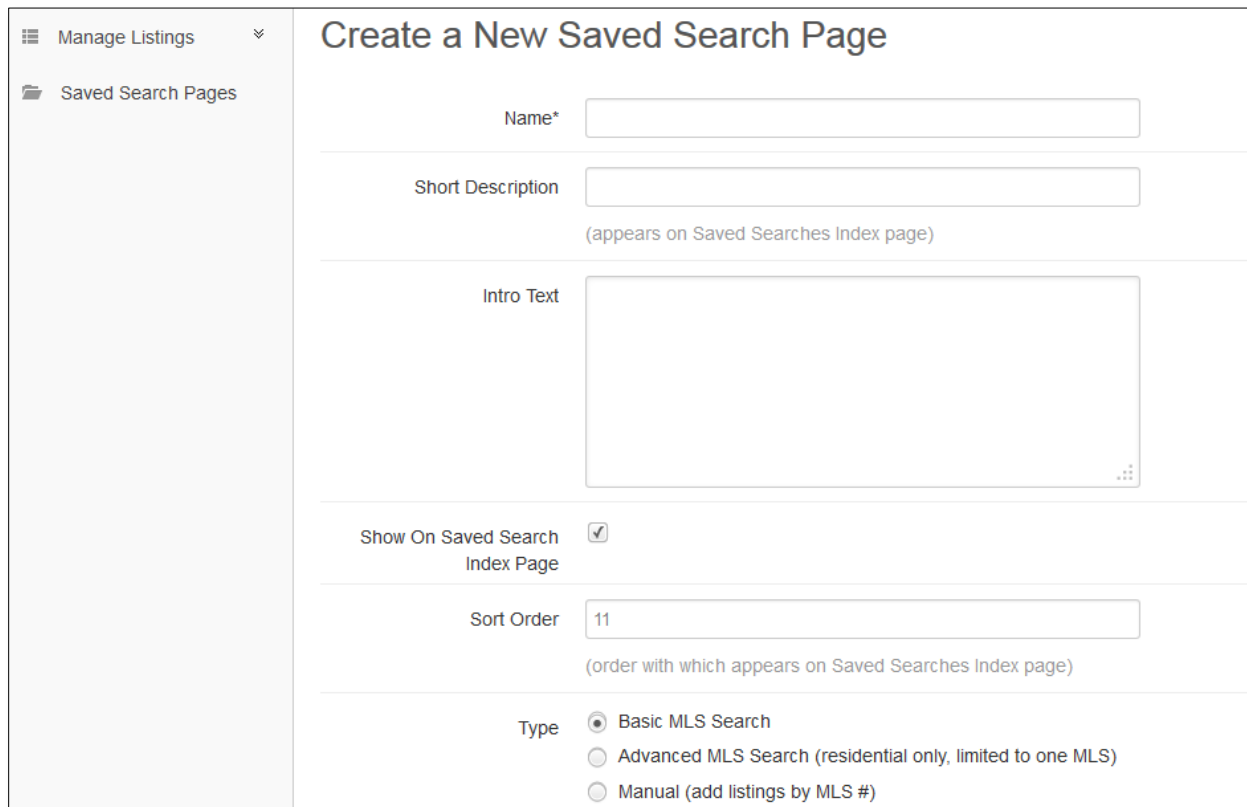

Click of the View Property Page button to see how it will display on your website.

Adding Supplemental (Exclusive) Listings

The Manage Listings/Supplemental screen allows you to add or modify supplemental listings. By default supplemental listings will display on the Our Listings page of your website.

Adding Saved Searches (Top Searches)

The Listings/Saved Search Pages screen allows you to add or delete Saved Searches.

The screenshot shows a web interface for creating a new saved search page. On the left is a sidebar with two menu items: 'Manage Listings' (with a grid icon and a dropdown arrow) and 'Saved Search Pages' (with a folder icon). The main content area is titled 'Create a New Saved Search Page' and contains the following fields and options:

- Name***: A text input field.
- Short Description**: A text input field with a note below it: '(appears on Saved Searches Index page)'.
- Intro Text**: A large text area with a 'Rich Text Editor' icon in the bottom right corner.
- Show On Saved Search Index Page**: A checkbox that is currently checked.
- Sort Order**: A text input field containing the number '11', with a note below it: '(order with which appears on Saved Searches Index page)'.
- Type**: Three radio button options:
 - ☒ Basic MLS Search
 - ☐ Advanced MLS Search (residential only, limited to one MLS)
 - ☐ Manual (add listings by MLS #)

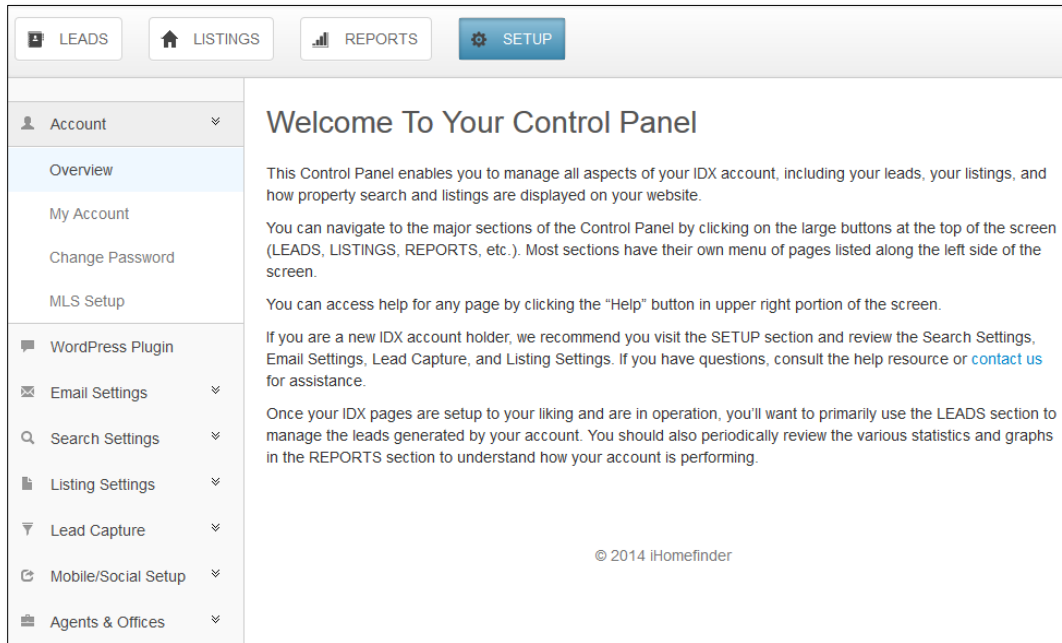

To create a new saved search page, follow these steps.

1. Name the new search.
2. Enter a short description of the search.
3. Make sure the checkbox to show on saved search index page is checked.
4. By default, the new search will be added at the bottom of the index page. If you want to put it in a different order enter it here.
5. Next, click to show your preference of a basic, advanced, or manual search. The advanced MLS search provides more options for houses and/or condos searches.
6. In the resulting search box, enter your search criteria and click the save button.

If you check the box to show on saved search index page, the new search will be displayed on the Top Searches page on your website.

The Setup Tab

The Setup Tab is where we manage the general settings. This guide will cover the settings you are most likely to want to manage.

The Account Tab

- The Account/My Account menu is where you would update your office and contact information.
- Click change password to update your username and/or password.

Email Settings

- In the Basic Setup tab, you can configure the main company contact and the e-mail update return/from address if you want it to be different than the main company contact.
- The system automatically generates e-mails to be sent to leads. If the main company contact or the agent assigned to that lead would like to receive copies of those system generated e-mails, choose Advanced Routing from Email Settings.

Lead capture

- The Lead Capture/User Registration screen allows you to manage when and how often it website user is prompted to register. I recommend using the office or ultralight option. You want the user to be engaged with your website. Too many prompts may cause them to leave.

Mobile/Social Setup

- The Facebook screen allows you to add a property search tab and a featured listing tab to your Facebook business page.

Agents & Offices

Agents

The Agents screen lists all of the agents currently on your roster. From this page you can add a new agent or modify an agent's profile. Clicking an agent's name takes you to the Edit Agent screen. With the exception of Agent Control Panel Settings, the options are similar to what agents see when they login to the Agent Control Panel.

- The Agent Control Panel Settings screen is where you set an agent's username and password and indicate whether to allow agents to modify their own username and password or listings.

Agents/Bio Information and Page Header

This screen allows you to update an agent's bio and indicate whether you want to allow the agent to modify their own bio. If you are pasting text from a Microsoft Word document when updating an agent's bio, click the Paste from Word button on the toolbar (see image below) and paste the text directly into the box that pops up.
